## SAIEE Africa Research Journal

SAIEE AFRICA RESEARCH JOURNAL EDITORIAL STAFF ..... IFC

GUEST EDITORIAL.....2

Silicon - post processing CMOS wafers to create integrated sensors, MEMS and electro-optic systems

by A.J. Walton, J.T.M. Stevenson, I. Underwood, J.G. Terry, S. Smith, W. Parkes, C. Dunare, H. Lin, Y. Li, R. Henderson, D. Renshaw, B. Rae, K. Muir, M. Desmulliez, D. Flynn, M.J. MacIntosh, W.S. Holland, A.F. Murray, T.B. Tang and A. Bunting ..... 3

Design and manufacture of quantum-confined Si light sources

by A.W. Bogalecki and M. du Plessis ..... 11

A fully CMOS optical transmission system based on light emitting avalanche diodes

by P. Ellinghaus, P.J. Venter, M. du Plessis, P. Rademeyer and A.W. Bogalecki ..... 17

Characterisation of adaptive fluidic silicone-membrane lenses

by F. Schneider, J. Draheim, J. Brunne, P. Waibel and U. Wallrabe .....21

Feasibility of optical clock distribution for future CMOS technology nodes

by P.J. Venter and M. du Plessis .....26

Surface passivation applicable to InAsSb/GaSb photodiodes for infrared detection

by V. Odendaal, J.R. Botha and F.D. Auret .....31

ZnO grown by Metal Organic Chemical Vapor Deposition: effect of substrate on optical and structural properties

by K. Talla, J.K. Dangbégnon, M.C. Wagener and J.R. Botha .....37

3D ultra-fast manufactured micro coils on polymer or metal cores

by U. Wallrabe, J.G. Korvink, K. Kratt, V. Badilita and B. Mack .....42

NOTES FOR AUTHORS ..... IBC
