- 3.2 All vehicles must meet MSA circuit racing safety requirements. (i.e. Roll cage, fire extinguisher, etc)
- 3.3 No in-car lap timing equipment (of any sort) is allowed. The onus is on the driver of any car, equipped with a timing device, to satisfy the committee with compliance with this rule, this includes no electronic pit to car communication. Transgression of this rule will result in exclusion from the championship, and all points will be forfeited.

4 Classes

- 4.1 The committee will decide in which class/classes a competitor will compete
- 4.2 The committee shall have the right to change a competitor's class in their sole discretion at any time
- 4.3 Class allocation will be done according to the guidelines set out below: Class is specific to a competitor, not a vehicle or competitor/vehicle combination.
- 4.4.1 The class in which a competitor competes is carried forward for one year – if a competitor raced in a specific class in 2018, he will be allocated the same class for 2019. However, if he raced in a specific class in 2016, and not raced in 2017, he will be race as class X for his first race in 2019.

4.4 Time based classes:

4.4.1 There are six classes as follows:

Class X: First time competitors

4.4.2 A new competitor will be allocated to class X for the first event. Thereafter the competitor will be allocated to a class based on the lap times recorded at that event.

4.4.3 At any new circuit (or first time visit for the series) and where the times need adjusting, class times will be posted on the official notice board.

What happens on breakout?

4.4.4 Once allocated to a class the competitor remains in that class unless he/she breaks out or applies to the committee to change class.

4.4.5 A class change to a higher class will be immediate upon breaking the lap time for the class for classes B- D. For example: if you are in class C and you record a time in qualifying, race1 or race2 faster than 1m15.0s you will automatically move up a class to class B and scored as such for the event.

4.4.6 A Competitor may after the race meeting apply to the committee in writing, supported by good reason, to change from a higher class back to a lower class for the following event (ie from Class B to Class C). Moving back down a class may only be granted once per championship and only if the competitor only broke out on one lap by less than 0.5sec. The same immediate breakout rule (4.4 above) will thereafter still apply.

4.4.7 Class A: If a competitor records a lap time faster than the lapttime specified in point 4.4.1 above in qualifying by more than 0.5sec or in race1 by 0.001sec a 5 place penalty will be imposed for the grid of the next race. If in race 2 a competitor breakout by more than 0.001sec on any lap they will receive a time penalty of 1sec per racing minute which will be added to the total race time.

4.4.8 Class A: : If a competitor records a lap time faster than the lapttime specified in point 4.4.1 by more than 1.0sec in either race or in qualifying the competitor will be disqualified from that session.

5 Championship Scoring

5.1 Points will be scored for each race separately and for each class separately. The points awarded will vary according to the number of competitors per class, as follows:

3 competitors or more in class: 10 8 6 5 4 3 2 1

1or2 competitors in a class: 6 5

- 5.2 All other competitors classified as finishers in the results published by the organisers of the meeting get 1 point.
- 5.3 All competitors at an event will score additional points for partaking in an event as follows: a competitors 1st event= +1 additional point; 2nd event = +2 additional points; 3rd event = +3 additional points; up to a maximum of 4 additional points per event.
- 5.4 To qualify to score points you have to complete a lap in any official timed session of the race meeting (practice, warm up, qualifying or a lap in either race).
- 5.5 At the annual long distance event (e.g. Phakisa 200km), one set of points will be applied for finishing order and the other for index of performance results.

5.4 Class changes

- 5.4.1 If a competitor changes class then based on the below table he/she will carry the specified percentage of points to the higher class.

Event Points percentage carried

At or before 4th Event 100%

5th Event 90%

6th Event 75%

7th Event 65%

8th Event or later 0%, (still count in the prev class, new points scored count in new class).

Example: A competitor usually competes in class C but exceeds the maximum lap time at the fifth event which puts the them into class B. This competitor will carry 90% of his/her points into class B.

- 5.5 All races score points and count towards the overall championship.

6 Grids and Starts

- 6.1 Qualifying will determine the grid for race1. The finishing order of race1 will be the grid for race2.
- 6.2 A competitor who is competing in another category on the same day may elect to use the time set in that qualifying session for the 111 Sports and Saloons Grid and not to set a time in the 111 Sports and Saloons qualifying session. Unless adverse weather conditions dictate an unfair advantage.
- 6.2.1 A competitor who does not set a time in qualifying, or race1 may apply to the COC to start at the back of the class.
- 6.3 All Starts are rolling starts.
- 6.4 No overtaking is allowed before the start line of the race.

7 Trophies

- 7.1 Although points will be scored on a per race basis, trophies are awarded on the combined race times of race 1 and race 2 (or race 3 in the event that there are three races on a day).

9 Number of starters:

- 9.1 If there are less than 20 starters the committee may decide to combine the 111 Sports and Saloons race with another category to increase the spectator appeal on the day.
