7. VEHICLE REGISTRATION AND ELIGIBILITY

7.1 The WPMC Sports & GT Cars Club Championship is an Invitational Series open to pre-approved Cars that fit the general genre of “Sports and Grand Touring Cars”. It is an impossible task to define this genre exactly in words as it includes racing as well as Production GT Cars, hence each competing Car as well as any potential new competing cars are required to be approved by the Controllers on an annual basis. Approved Cars will be issued with a Disc for the Calendar year before the first Race of the Year.

- 7.2 Before any vehicle is allowed to race in the WPMC Invitation Sports and GT Car Championship series, the vehicle must be presented to the controllers for eligibility checking which will cover general compliance, finish and appearance, as well as practical safety issues. To be eligible to compete for trophies and points all competing cars must display all identification/signage required by the series sponsor and subsidiary sponsors. It is strongly advised that before any new car is built, the Competitor approaches the controllers to obtain guidance and approval for the concept. The controllers reserve the right to refuse any vehicle entry, which in their opinion contravenes the spirit in which WPMC Sports and GT Car racing has been designed. All cars must be inspected by the Technical Representative of Sports and GT Car Section at beginning of the first race entered.
- 7.3 This series is NOT open to Cars that currently compete or have previously competed in another Series, (e.g. Wesbank, Sascars or Oval Track) unless they are Racing Sports Cars (e.g. Shelby Can am) or of the same type as Cars currently accepted, i.e. Porsche 911's. The Sports Car Committee may limit these in order not to harm another Championship that is currently taking place.

displayed in accordance with MSA GCR's SSR's and applicable Bulletins issued by MSA in all regards.
