

To whom it may concern:

My name is Deanné Horn .I am a long distance runner and recently started running for Nedbank AGN. They are a big help with my training and also nutrition. Mr Nick Bester (National Manager of Nedbank running club) recommended that I start using Biogen for fuelling before- after and during my training.

I was introduced to the product amino power plus. This is also the reason why I am writing this letter. Nick Bester send me the orange flavour amino power plus to start using after hard training sets. First time I used it started feeling pins and needles and must be honest was sceptical. Thought to myself that I must give it another try this is when I fell in love with the product. Great flavour and I can feel a big difference comparing to other products that I have used before.

Keep up the good work and will definitely try the watermelon soon.

Big thanks to Nedbank also for introducing me to Biogen.

Deanné Horn
