National events, publications & news

It's economically beneficial for SA to protect its natural capital. Healthy natural landscapes such as veld, wetlands, rivers, and estuaries across South Africa generate value to the economy amounting to at least R275 billion per year, a new study by economists at the University

of Cape Town (UCT) has found. To read more [click here.](#)

Enter your organisation or nominate another worthy eco-champion for an Eco-Logic Award. The Eco-Logic Awards, hosted by The Enviropaedia, recognise and promote those individuals, organisations, products and services that are helping to create a sustainable environment and society. To read more [click here.](#)

International events, publications & news

The Network for Business Sustainability reviews the latest insights into effective reporting. Discover how organizations communicate the right information at the right time to the right stakeholders. To read more [click here.](#)

Moving Ahead with REDD+ to Combat Climate Change. The climate change mitigation programme, Reducing Emissions from Deforestation and Forest Degradation (REDD+) is maturing as countries build the necessary systems to reap the results-based rewards of participation. But, much work and fresh challenges lie ahead as countries move from readiness to implementation. [Click here.](#)

IPBES Launches Primers on Upcoming Assessments. The Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES) has launched a series of primers. The short briefing documents contain key information about the five landmark assessments set for launch at the sixth annual session of the IPBES Plenary, to be held in March 2018, in Medellín, Colombia.
