# FIM Team Speedway U21 World Championship

2021 Calendar update, 11 February

## Bydgoszcz to host the FIM Team Speedway U21 World Championship

For the 5th time in Poland but the first time in its history, Bydgoszcz will stage the FIM Team Speedway U21 World Championship and welcome the world's best U21 national speedway teams on 27 August 2021.

Thanks to the recent dynamic growing development of speedway sport in Bydgoszcz, the local speedway club has been given another opportunity to organize an international championship event.

"Another big, international speedway event is taking place in Bydgoszcz. Our city appears in the FIM Speedway calendar again. The track in Bydgoszcz has proved repeatedly, that it is a place, where you can experience spectacular races. I strongly believe that this time it also won't disappoint the fans", said Jerzy Kanclerz.

After the situation faced in 2020 (some teams could not travel because of the COVID-19 restrictions), the FIM Track Tacing Commission has decided to change the format of 2021 version with 7 Teams composed by 2 programmed and 1 substitute Riders.

From the very beginning, the FIM Team Speedway U21 World Championship was dominated by Polish Team, who won 13 out of 16 gold medals so far, with 7 victories in a row. But the last years were more challenging with the Danish and British young guns making troubles in the Polish's road to gold.

The team world championship is a perfect chance for young riders to challenge and present their skills in front of a broad audience. It is also an important test for future members of the respective senior national speedway teams. For many years the FIM consistently develops projects, which support the growth and competition of Youth riders.

### About the FIM ([www.fim-live.com](http://www.fim-live.com))

The FIM (Fédération Internationale de Motocyclisme) founded in 1904, is the governing body for motorcycle sport and the global advocate for motorcycling. The FIM is an independent association formed by 115 National Federations throughout the world. It is recognised as the sole competent authority in motorcycle sport by the International Olympic Committee (IOC). Among its 50 FIM World Championships the main events are MotoGP, Superbike, Endurance, Motocross, Supercross, Trial, Enduro, Cross-Country Rallies and Speedway. Furthermore, the FIM is also active and involved in the following areas: public affairs, road safety, touring and protection of the environment. The FIM was the first international sports federation to impose an Environmental Code in 1994.
