

## **Report of the non-sports director**

**Mr LARAICHI Abdallah**

### ***Ladies and gentlemen***

First of all, I would like to express my joy, to see you again in good health following this difficult year marked by the covid 19 pandemic, the holding of this General Assembly is a new proof of the unity of solidarity that animates our actions.

Our Moroccan government has just lifted the night curfew as of Wednesday, November 10, 2021.

The sport motocycliste will come out of its confinement and will continue to bring joy, to lovers of motorcycle sport. It is very important to analyze and understand the past to anticipate the future, this report will serve to know and understand all the rich positive life that we have just lived despite Covid 19.

According to the reports and the ZOOM platform meetings of the committees have provided an honourable work and on this subject the FRMM has just proposed 3 Working Group Members to FIM AFRICA i.e.

- Mr Said EL MEJJAD : Motocross
- Mr Mohamed Asnas BERRAZOUQ : enduro
- Mr khalil Iqadimi : Cross country

Let us keep a great hope in order to provide an honorable work

<sup>1st</sup> part: the realization of the Tourist concentration has just opened up intensive future prospects, 84 motorcycles have gathered at the Mehdiya tourist complex and a scheduled Motorcycle Parade Mehdiya-Kenitra towards the administrative place. Road safety in general, which must be one of the largest properties, and we have the opportunity for the CTL commission that has just organised its meeting at the complex to have the honour of attending the motorcycle parade.

We are all passionate about this tourist and sports sport.

<sup>2nd</sup> part: Rally of Morocco, the integration of Moroccan drivers from different clubs in the Rally of Morocco and enduro Cup, gives the opportunity to the young Moroccan Amine ECHIQUER to win the enduro cup category 2021.

<sup>3rd</sup> part: Motocross course for young riders.

According to the unconditional help of the FIM, a motocross course has just been organized in Marrakech on 11-12 September 2021, and the 2nd course will be scheduled for the date of 13-14 November 2021 in Salé, these courses will improve the technique of the riders. To this

We have started negotiations with the FIM to detach a French coach for short stays.

4<sup>th</sup> part: for the environment:

Education is one of the fundamental pillars of sustainability, taking into consideration the protection and promotion of biodiversity, we must be wary of electric vehicles. Particular attention must therefore be paid to the production of batteries and their disposal or reuse, provide a sustainable energy source for the recharger of electrically powered machinery.

5<sup>th</sup> part: women's commission.

An FRMM women's commission has just been born, but the lack of participants in the various competitions, lack of equipment and the organization of seminars should not discourage this discipline, through leisure motorcycles we have seen several women who love nature and leisure, it is necessary to create a women's competition in order to give a great breath to this discipline.

6<sup>th</sup> part: medical commission:

I offer courses for first aid, and at least the 4 gestures to know.

7<sup>th</sup> part: new activity: 4 competitions are scheduled this year for motorcycles on the asphalt circuit.

8<sup>th</sup> part: planning of an academy in North Africa.

We are waiting for a large grant to set up the mass of this project.

9<sup>th</sup> part: participation in the nations championship in Italy 25-26 September 2021:

3 Moroccans participated in the nations championship, the risky bad luck of the Moroccan team lets us attract lessons from this participation.

10<sup>th</sup> part: Moroccan championship: Motocross and cross-country.

12 competitions have been scheduled this year and according to the motocross courses the level of the Moroccan championship is improved.

11<sup>th</sup> Enduro of the sand.

3 sand enduro competitions will be scheduled, beach sand lovers are satisfied.

I believe that our flywheel can create our virtue.
