

On the 22 of February 2021, at 16h30 (South African time), we will host a conversation entitled

Trends and changes to sea ice, Greenland ice and the cryosphere in general, and what this means to us everywhere else!

Dr Helene Hewitt

Met Office Science Fellow and Coordinating Lead Author of IPCC AR6 WGI Chapter 9 on 'Ocean, Cryosphere and Sea Level Change'.

Prof. Dr. Antje Boetius

Director
Alfred Wegener Institute (AWI)
Helmholtz Centre for Polar and Marine Research/ Max Planck Institute for Marine Microbiology.

Your Chair:

Dr Pedro Monteiro

Head of Ocean Systems and Climate (CSIR), Director of SOCCO, Coordinating Lead Author of IPCC AR6 WG1 Chapter 5 on 'Global carbon and other biogeochemical cycles and feedbacks'.
